

## Parish Cllr. Paddy Riordan

### Written Statement

I have recently joined the Parish Council because, as a long time resident in the village, I would like to assist as much as possible in all the good work that is in progress.

There are many issues that are going on at the present time in our village, including; new housing, public transport, traffic & parking problems, litter, new green area's etc.

There are also many groups that are set up to enhance the amenities within the village. As a new Councillor I am hoping to help with many of these matters and use my local knowledge to push things forward in a positive manner.
