9,227 = 54.01% are speeding. 3,221 = 18.85% were recorded at 36mph and above in the week including the 137 = 0.81% vehicles exceeding the 50% threshold. It is of concern that well over half of vehicles are speeding in this residential area, with many at speeds that would receive a police caution or points on their licence. A controlled pedestrian crossing would give a strong visual reminder as well as improve pedestrian safety.

On every day, more vehicles left Staplehurst than entered via this route! Does this confirm we don’t need any more houses?
