

How can you help?

Gather evidence – e.g. photographs (invaluable); details of incidents with times and locations; wildlife noted e.g. bats, nightingales, Great Crested Newts, notable trees.

Tell the people who need to hear your opinions – tell MBC Strategic Planning what you think about the sites; tell the providers of infrastructure and services how you think they should respond and what you think they need to do (see contact list below).

Share your opinions – copy your correspondence to your relevant elected representatives (see contact list below).
